Sir,

Sub. Industries - Sericulture - Central Silk Farm, Kollegal - Cold Storage Room - Dial Thermometer - fixing - expenditure sanction - Requesting -

---

The Sericultural Expert informs me that it is very necessary to record the temperature inside the cold storage room in the Central Silk Farm, Kollegal periodically in order to find out whether uniform temperature is being maintained to facilitate perfect hybernation of silkworms consigned into it. Four thermometers are at present kept inside the cold storage room and the temperature is recorded every three hours. As every time the door of the cold storage room is opened the temperature in the cold storage gets affected. The Sericultural Expert considers it desirable to have a dial thermometer mounted outside the cold storage room so that the temperature could be recorded from outside without opening the door

of the

of the room. The Sericultural Expert has secured an offer for the supply of an Accoson's Mercury-in-steel indicating thermometer with a range of 0° - 150° F. at a cost of Rs.213-12-0 and has placed an order for its supply.

I support the Sericultural Expert's proposal and request that Government will be pleased to accord sanction to the expenditure of Rs.214/- for the purpose. I also request that the action of the Sericultural Expert in having placed the order for the article in anticipation of sanction may be approved.
